

All,

The restriction co-held by the town and VCS has flexibility to accommodate these Covid-related community requests, and the Vineyard Committee on Hunger, which funds Serving Hands, is a non-profit org.

At the time of the initial request some 18 months ago, we talked about how the request would likely recur until the public health situation eased. As with the prior activities, we ask that there be coordination with WTPD to ensure smooth traffic flow to keep overall intensity of use reasonable.

Thanks.

Brendan

Hi Jen,

Serving Hands is looking to do another food distribution on 11/19 from 2-4pm. They will be doing it in the same area they always do at the back corner of Jane's Fair Way in front of the shop. They will be dropping food off from approximately 9-11am. Volunteers will be then bagging up the food for individual families from 11-1:30ish. Then families will enter the property off Panhandle Road, drive by and pick up their bag, then exit on to State Road from 2-4. This will look similar to what they did for Easter and 2020 Thanksgiving & Christmas. They are expecting 100-150 families to drive-thru.

Please let me know if you have any questions or need anything else. Thank you for the consideration.

Lauren
